Separated
particles

Relations

become

secondary

in logic of Aristotle

Relations

are

primary

in quantum logic

In Quantum logic

relations

are to be

grasped

by complementarity

(Contradiction and exclusion)

Complementarity

is a hint

for a

wholeness

in Quantum logic

Technique
of

QUANTUM LOGIC MEDICINE

is transparent,

lets you find the remedy very exactly,

and thus is much more effective in healing!!!

(Colleagues are delighted!)

Test of Dr. Astrida Taborsky

Two-thirds of beginners in
Quantum Logic Medicine
found after a workshop
the correct and healing remedy!

The physician compiles every single piece of data revealed by the patient

Zum ganzen Patienten gehören all seine Daten.

He is not some assembled “heap of data”.

The data he contains are connected to one another.

Quantum logical physician looks specifically to discover the relationships in Ralf, for it is they that connect him – making him a holistic entity

Sequence
of events:

First 1,

then 2.

What keeps this process in motion?

Alternating,

***... as they are
separated,
distanced.***

= complementarity

Distanced
= peculiar!

Mathematical Form of a Quantum!

No body, no psyche,
Mathematical Form is non-localized.

Mathematical Form is exactly abstract.
 No place for interpretation!

Ralf's incredibly meticulous script, "corrected three hundred times over"!

Ralf "often blows a fuse and talks others into the ground".

An evident pair of opposites ...

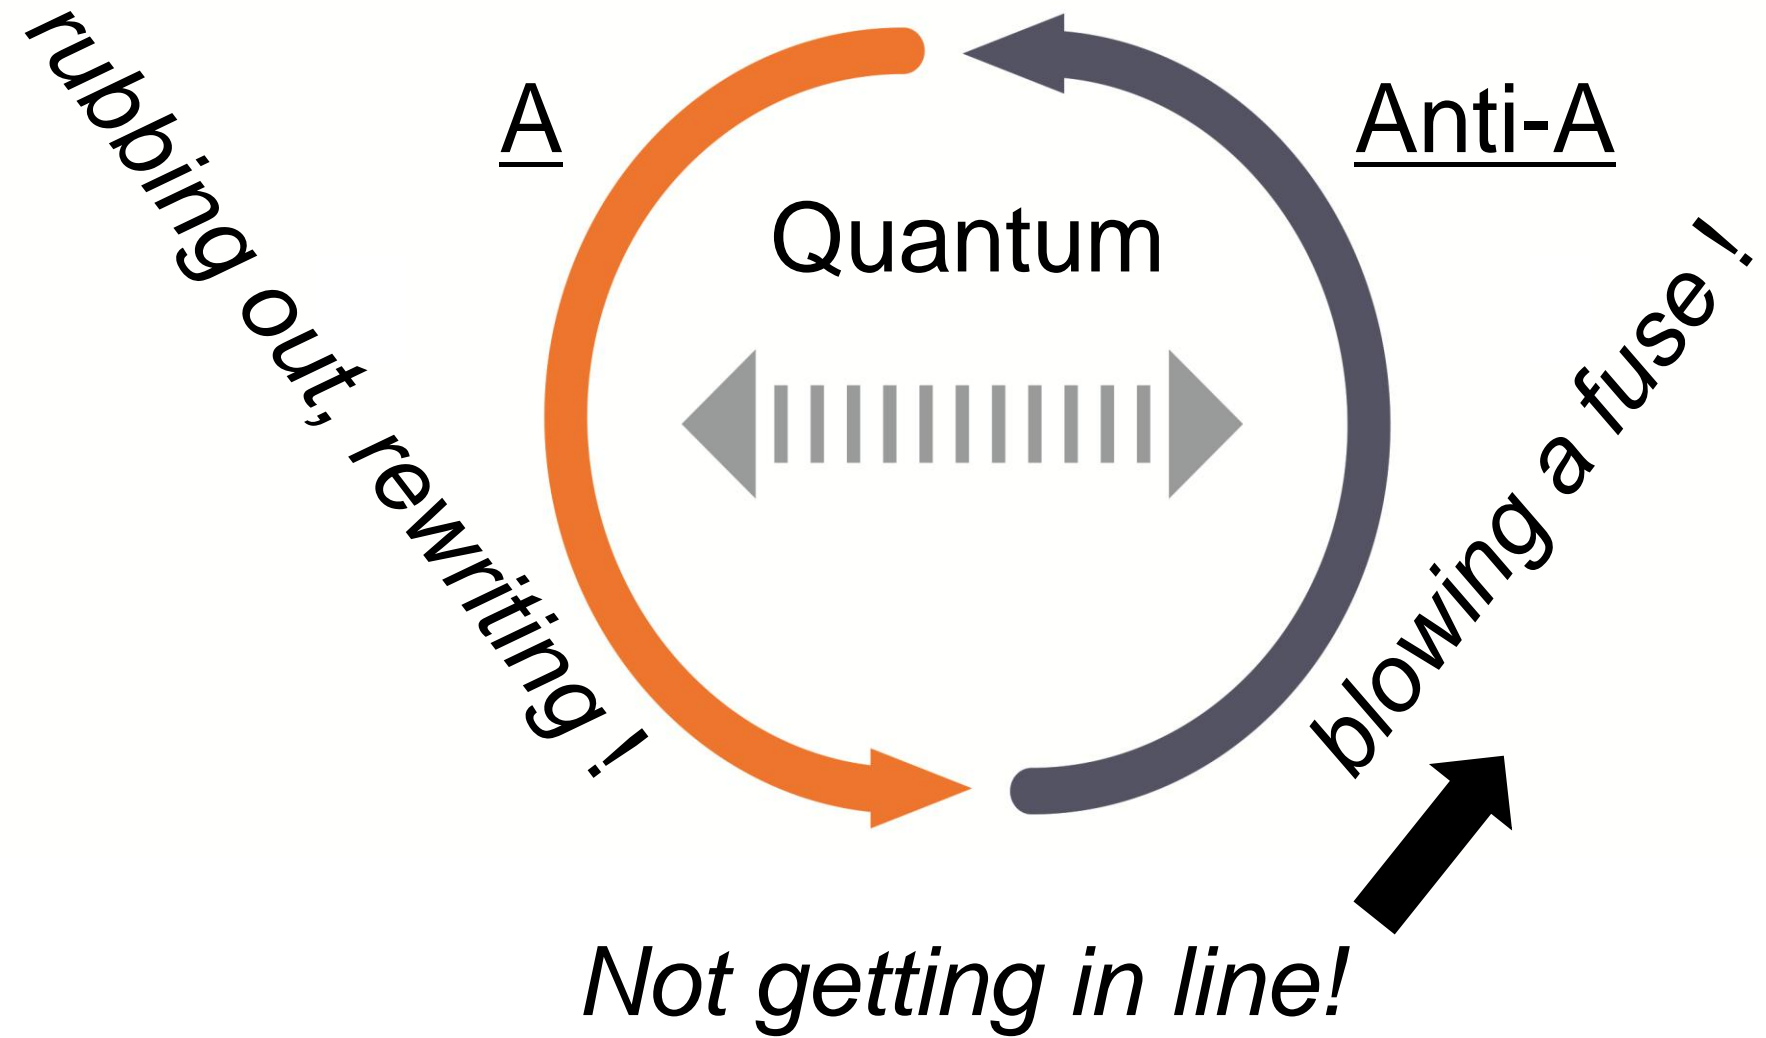

An evident pair of opposites:

A: Ralf compels himself to keep to the grid, i.e. the narrow confines, by rubbing out and rewriting three hundred times over.

Anti-A: Standing in contradiction to this function is the fact that he repeatedly blows a fuse and incessantly talks others into the ground, time and again

***MATHEMATICAL FORM:
Three hundred times over, repeatedly***

Continuing the examination of Ralf
 the physician gets
 a more clear result by every symptom:
